

```
jblazina@cscd-linux01:~/CSCD240/HW1$ ./Array_test
```

Enter the number of rows: 2

Enter the number of columns: 2

First Array:

Enter data for row number: 0

2 8

Enter data for row number: 1

3 9

Second Array:

Enter data for row number: 0

2 7

Enter data for row number: 1

3 8

Enter your option: 'A', 'B' or 'M':A

Adding array 'a' and 'b'

After adding array 'a' and 'b', the resulting array is:

4 15

6 17

```
jblazina@cscd-linux01:~/CSCD240/HW1$ ./Array_test
```

Enter the number of rows: 2

Enter the number of columns: 2

First Array:

Enter data for row number: 0

2 8

Enter data for row number: 1

3 9

Second Array:

Enter data for row number: 0

2 7

Enter data for row number: 1

3 8

Enter your option: 'A', 'B' or 'M':B

Subtracting array 'b' from array 'a'

After subtracting array 'b' from array 'a', the resulting array is:

0 1

0 1

```
jblazina@cscd-linux01:~/CSCD240/HW1$ ./Array_test
```

Enter the number of rows: 2 2

Enter the number of columns:

First Array:

Enter data for row number: 0

2 7

Enter data for row number: 1

3 8

Second Array:

Enter data for row number: 0

3 8

Enter data for row number: 1

2 8

Enter your option: 'A', 'B' or 'M':M

Multiplying array 'a' with array 'b'...

After multiplying array 'a' with array 'b', the resulting array is:

6 56

6 64
